EXCELLENCE IN WALKABLE SOLAR FLOORS

- Onyx Solar Energy S.L. walkable photovoltaic floors.
- Provides an anti-slip walkable surface that supports 400kg in point load tests.
- Tiles can be provided in colour or in a neutral colour and backlit by the energy generated.
- Easy integrated into new build or refurbishment designs.
- Tile size is 600 x 600 x 16.72mm thick, mounted off a tile floor framing system.
- Uses a-Si thin film technology within the composite glass.
